MOBILE APP VIDEO COPY / LOCATION-BASED RECOMMENDATION SERVICE

Wouldn't it be great if you didn't have to make all those pesky decisions all day long? Like where to eat, which store has that perfect gift you need, or where you can snag a great bargain on a TV.

With Hideout, you can stop scratching your head and start having more fun with your day. And it's dead simple to use: You simply tap the Hideout app in your phone and start talking.

Hideout is great for traveling, too. It automatically knows when you're not in your area anymore and starts making suggestions on hotels, local events, and even cool, hidden places that only the locals know about.

Less of an app and more of an essential life companion, Hideout will save you time and money every day.

Give it a try and see why Hideout has thousands of happy users.

PRODUCT PAGE COPY / COCONUT WATER COMPANY

It's what's on the inside that counts!

Just ask a coconut.

Coconut water is a natural sports drink, made without adding sugar, food coloring, or artificial sweeteners. It's packed with essential electrolytes including potassium, magnesium, and calcium — helping your body rapidly recover and rehydrate.

With only 45 calories in a cup, coconut water is a great substitute for higher calorie drinks like sodas or juice, according to the Academy of Nutrition and Dietetics.

Studies have shown that coconut water can perform just as well as a traditional sports drink to keep you hydrated and help replenish fluids after a run.

As the first Fair-For-Life coconut water, Harmless Harvest invests in the communities at the source, creating a positive social and environment impact.
